INCOSE Member Number

Referee's Highest Certification Level (if any)

Are you an INCOSE Fellow?

Yes

No

Referee's Qualifications

Name of Present Business / Agency / Institution

Current Job Title:

Describe your (not the applicant's) number of years and types of systems engineering experience. Provide information on work performed, not just job titles. This information will help the review team ascertain that you are a qualified referee. **If you are a current or former INCOSE CSEP, ESEP, or Fellow, or Chartered or Executive accredited Engineers Australia member, noting that here is sufficient qualification.**

Referee's Knowledge of Applicant

During what time period did you have personal knowledge of the applicant's Systems Engineering Experience?

From (MM/YYYY)

To (MM/YYYY)

Complete this section for all CSEP applications.

Describe your business connection with the applicant during this period (e.g., "I was his/her immediate supervisor").

Describe systems engineering work the applicant has performed and the specific outcomes or work products the applicant produced. Also, tell us how many months the applicant performed each systems engineering function and what was the quality of their work. You may use the last two pages of Form 4A to guide you. Please describe the applicant's experience over the total period that you had personal knowledge of the applicant's SE experience. Be specific; use your own words; and use as much space as you need.

Complete this additional section for CSEP application where applicant is a Chartered Professional Engineer (CPEng) within Engineers Australia.

Describe your support, as an experienced systems engineering professional, of the other claimed systems engineering functional competencies. Include any evidence to support this.

Reference's Recommendation on Applicant

I recommend this applicant for CSEP certification

I do not recommend this applicant for CSEP certification

Signature:

Date (MM/DD/YYYY):
